AMBER GLOW. A Cactus of the highest English type, petals are long, narrow and straight. Size immense. Stem is as good as its parent, Pierrot. The color is bright yellow, deepening to pale orange at the center. An incomparable exhibit blossom which is also good for cutting. Tubers \$2.00 Plants \$1.00

To a lover of pink flowers, nothing so dainty and pretty has been offered since France introduced Delice. Tubers \$2.00. Plants \$1.00.

DECORATIVE DAHLIAS

NOVELTIES

We have observed during the last few seasons a growing tendency on the part of the public who frequent Horticultural Exhibitions to favor the exhibits of huge Decorative varieties. This impressed us so much that we decided to grow all the introductions, and to select therefrom those which pleased us in regard to habit of growth—particularly the way in which the flowers were produced upon the plants—floriferousness and general effectiveness in the garden. In size they cannot be equaled and for decorative
